MANAGER'S REPORT

for the year ended 31 March 2025

Authorised Status

WS T. Bailey Multi-Asset Dynamic Fund ('the Trust') is governed by a Deed made between the Manager and the Trustee dated 21 April 2006 as amended by supplemental trust deeds made between the same parties dated 10 January 2011, 21 October 2011, 23 August 2012, 7 September 2015, 17 March 2016, 25 July 2018, 30 November 2018, 7 August 2019, 2 June 2023, 2 October 2023 and 11 March 2024.

The Trust is an authorised unit trust scheme and is a UK UCITS as defined in the Glossary of the Financial Conduct Authority ('FCA') Handbook, and the effective date of the authorisation order made by the FCA was 25 April 2006.

The unitholders of the Trust are not liable for the debts of the Trust.

The base currency of the Trust is pounds sterling.

Manager's Statement

Economic Uncertainty

Whilst the outbreak of COVID-19 in March 2020 now seems a distant memory, Russia's incursion into Ukraine in February 2022 remains an unresolved conflict that has led to inflationary pressures globally. Add to this the Israel-Hamas conflict that commenced in October 2023, and we are faced with consequences in both the domestic and global economy. Significant increases in the prices of energy and commodities have reverberated around the world, leading to many countries experiencing inflation at levels not seen for many years. To curb the increase in inflation, many nations' central banks have been progressively increasing interest rates. In light of most economies heading in a downward trajectory, central banks have ended their aggressive monetary tightening and have projected loosening their monetary policies in the second half of 2024. Although the consequences of the geopolitical events remain unclear, the global economy has shown resilience to the inflationary environment and gives hope that a 'soft-landing' is attainable. July brought political uncertainty in Europe with snap elections in the UK and France which eventually had a moderate impact on financial markets. From September 2024, Western Central Banks in the US, Eurozone and UK started cutting interest rates to support job market and deteriorating manufacturing activity as inflation has continued to ease. In addition, in the US, the change of political party to Republicans from Democrats had a positive impact on US equities as President-elect Donald Trump vowed to reduce corporate tax and increase spending to boost the economy. The immediate impact on fixed income markets has been negative as his pro-economy policy brought some uncertainty on the future inflation trend, which has been offset by the US Federal Reserve's November and December rate cuts keeping its policy focus unchanged on actual inflation and economic data rather than the results of the elections. The first quarter of 2025 was marked by rising uncertainty in the wake of a tariffs war imposed by the US on exported goods from many countries in the world to the US. This resulted in an increase in volatility on equity markets and negative performance especially for US stocks. Conversely, US and European Government bonds exhibited positive returns playing their roles of safe haven.

MANAGER'S REPORT continued

Important Information

With effect from 28 June 2024, the registered office of the Manager changed to 3rd Floor, Central Square, 29 Wellington Street, Leeds, United Kingdom, LS1 4DL.

With effect from 30 September 2024, the Registrar changed its name from Link Fund Administrators Limited ('LFAL') to Waystone Transfer Agency Solutions (UK) Limited ('WTASL').

With effect from 7 November 2024, the Auditor of the Trust changed from Cooper Parry Group Limited to KPMG LLP.

Investment Objective and Policy

The Trust aims to outperform the UK Consumer Prices Index (CPI) + 3% per annum, over Rolling Periods of 5 years (after charges). Although the Trust aims to outperform the UK Consumer Prices Index (CPI) + 3% per annum over Rolling Periods of 5 years, capital invested is, in fact, at risk and there is no guarantee that a positive return will be generated over that time period or any other time period.

Typically, at least 80% of the Trust will be invested in a range of other collective investment vehicles, such as open-ended collective investment schemes, unit trusts, investment trusts ('funds') and exchange-traded products ('ETPs'). The funds may include those managed or operated by the Manager and its associates.

Through investments in these other funds and ETPs, the Trust is exposed to a range of asset classes. Under normal market circumstances, between 20% to 80% of the value of the Trust will be exposed to equities. The Trust may also have exposure (typically, no more than 60% in aggregate) to global debt securities (such as government, corporate and high yield bonds) and there may be a degree of exposure (typically, no more than 40% in aggregate) to any one or more of: real estate and commodities.

The Trust is dynamic in that the weighting of the asset classes to which the Trust is exposed may be varied depending on the Investment Manager's views in the context of achieving the investment objective and at any one time the Trust may be exposed to a diversified range of asset classes, sectors, currencies or geographies in various proportions.

The Trust is actively managed, taking into account the Investment Manager's views on growth opportunities and investment themes.

Investment themes driving the selection of assets include areas where demand is robust and is likely to exceed supply for the foreseeable future (for example, technology, healthcare, materials, sustainability). This focus on global themes highlights higher growth opportunities irrespective of geography.

The Trust will use a range of different active and passive managers in order to provide a diversity of style to protect against possible periods of poor performance by any one manager or product.

To the extent not fully invested in funds and ETPs, the Trust may invest directly in other equities, debt instruments, money market instruments, cash and near cash.

MANAGER'S REPORT continued

Investment Objective and Policy continued

Derivatives may be used for efficient portfolio management purposes to reduce risk or cost or to generate additional capital or income. The use of derivatives is expected to be limited.

The funds in which the Trust invests may use techniques which are not employed by the Trust itself, for example the use of derivatives for investment purposes, stock lending and hedging. If these funds use derivatives for investment purposes it is not intended that this would raise the risk profile of the Trust.

Benchmarks

The Trust's target benchmark is the UK Consumer Prices Index (CPI) + 3% per annum.

The UK Consumer Prices Index (CPI) + 3% is a measure of UK inflation, and so is considered an appropriate measure of what constitutes a return in real terms. The benchmark return is quoted total return in GBP and net of fees.

The Trust's comparator benchmark is the IA Mixed Investment 20-60% Shares Sector ('the Sector').

Unitholders may wish to compare the Trust's performance against other funds within the Sector as that will give investors an indication of how the Trust is performing compared with others investing in a similar but not identical investment universe. As the Sector aligns with the Trust's asset allocation, it is considered that this is an appropriate comparator. The benchmark return is quoted total return in GBP and net of fees.

Remuneration Policy

Waystone Management (UK) Limited ('WMUK') is committed to ensuring that its remuneration policies and practices are consistent with, and promote, sound and effective risk management. WMUK's remuneration policy is designed to ensure that excessive risk taking is not encouraged by or within WMUK including in respect of the risk profile of the funds it operates, to manage the potential for conflicts of interest in relation to remuneration (having regard, inter alia, to its formal conflicts of interest policy) and to enable WMUK to achieve and maintain a sound capital base.

None of WMUK's staff receives remuneration based on the performance of any individual fund. WMUK acts as the operator of both UK UCITS funds and Alternative Investment Funds ('AIFs').

WMUK delegates portfolio management for the funds to various investment management firms. The portfolio managers' fees and expenses for providing investment management services are paid by the Manager out of its own remuneration under the Manager agreement. The investment management firms may make information on remuneration publicly available in accordance with the disclosure requirements applicable to them. This disclosure is in respect of WMUK activities (including activities performed by its sister company Waystone Transfer Agency Solutions (UK) Limited (WTASL) or by employees of that entity), and excludes

MANAGER'S REPORT continued

Remuneration Policy continued

activities undertaken by third party investment management firms. WMUK staff do not perform duties solely for particular funds, nor are they remunerated by reference to the performance of any individual fund. Accordingly, the information below is for WMUK as a whole. No attempt has been made to attribute remuneration to the Trust itself.

Information on WMUK's remuneration arrangements is collated annually, as part of its statutory accounts preparation processes. Accordingly, the information disclosed relates to the year ended 31 December 2023, being the most recent accounting period for which accounts have been prepared by WMUK prior to the production of these accounts. As at 31 December 2023, WMUK operated 83 UK UCITS and 119 AIFs, whose respective assets under management ('AuM') were £36,868 million and £52,751 million.

The disclosure below represents that required under FUND 3.3.5R (5) and (6) for funds subject to AIFMD obligations.

2023	Number of beneficiaries	Fixed £'000	Variable £'000	Total £'000
Total amount of remuneration paid by WMUK for the financial year to 31 December 2023	166	3,223	324	3,547
Total amount of remuneration paid to members of staff whose activities have a material impact on the risk profile of the funds for the financial year to 31 December 2023				
Senior management (incl all Board members)	7	390	104	494
Staff engaged in control functions	11	411	86	497
Risk takers and other identified staff	17	461	50	511
Any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers	-	-	-	-

WMUK's remuneration arrangement includes fixed salaries, contributory pension arrangements and certain other benefits, and the potential for discretionary bonuses. The amount available for payment of discretionary bonuses is dependent on satisfactory performance by WMUK, and the Waystone Group as a whole, rather than the performance of any individual fund. Bonuses may then be paid to staff to reflect their contribution to WMUK's success. The precise metrics used vary by function, but consideration is given to both qualitative and quantitative measures.

Further details can be found at: <https://www.fundsolutions.net/media/jyujy1n3/wmuk-explanation-of-compliance-with-remuneration-code.pdf>.

MANAGER'S REPORT continued

Remuneration Policy continued

On 11 March 2024 the Manager of the Trust changed from Waystone Fund Services (UK) Limited (WFSL) to Waystone Management (UK) Limited. The disclosure above relates to WMUK only and so does not include the remuneration amounts paid to WFSL staff for the financial year to 31 December 2023.

Securities Financing Transactions

The Trust has the ability to utilise Securities Financing Transactions (being transactions such as lending or borrowing of securities, repurchase or reverse repurchase transactions, buy-sell back or sell-buy back transactions, or margin lending transactions). No such transactions have been undertaken in the period covered by this report.

Task Force on Climate-related Financial Disclosures ('TCFD')

In accordance with current Financial Conduct Authority rules, the Manager is required to publish its own TCFD report and that of each fund. The report can be found at TCFD Reporting (fundsolutions.net/tcfd-reporting) and the report of the Trust can be found at <https://www.fundsolutions.net/uk/t-bailey/ws-t-bailey-funds/tcfd-reporting-ws-t-bailey-multi-asset-dynamic-fund/>.

Prior to accessing the report of the Trust there is a link to the 'TCFD Reporting Guide' which provides an explanation of the TCFD report.

Value Assessment

In accordance with current Financial Conduct Authority rules, the Manager is required to carry out an annual assessment on whether the Trust provides value to investors. The outcome of the latest assessment is available on the Manager's website.

WAYSTONE MANAGEMENT (UK) LIMITED

Manager of WS T. Bailey Multi-Asset Dynamic Fund

MANAGER'S REPORT continued

INVESTMENT MANAGER'S REPORT

for the year ended 31 March 2025

Review

The Trust returned 6.64% over the review period, outperforming its target benchmark, the UK Consumer Prices Index (CPI) +3% by 1.00%. The Trust outperformed its comparator benchmark, the IA Mixed Investment 20-60% Shares Sector, by 2.87%.

The opening half of the financial year was a positive period for risk assets globally as economies continued to cool and central banks eased back on their inflation concerns. The US Federal Reserve initiated an easing cycle by cutting interest rates, following the lead of their European counterparts, including the UK.

Japan took a different approach, using rising domestic inflation as an opportunity to hike interest rates. This led to increased borrowing costs that were particularly detrimental to so-called 'carry trades' reliant on cheap financing. A considerable strengthening of the Japanese Yen and a brief period of market volatility ensued during the summer months.

The Trust's diverse equity exposure across themes, sectors and regions positioned it well at this time. A long-term strategic bias to UK equities on account of relatively attractive valuations performed, particularly in a modest bounce post the UK general election as a degree of political certainty returned to the country. Specific allocation to UK infrastructure equities was introduced via the VT Gravis UK Infrastructure Fund, on recognition that a softening in interest rates would be beneficial to closed ended funds priced at sizeable discounts to their valuations following the rise in interest rates in 2022.

Perhaps surprisingly, a laggard in performance over the period was exposure to the artificial intelligence ('AI') theme. Strength in this area in previous years had seen a rise in valuations and ever greater expectations for future earnings. This presents a challenge. A shift from the large-cap technology companies that enable AI services towards those companies able to benefit from putting it to use is recognised by the Trust's holding in the Polar Capital Artificial Intelligence Fund. In addition, we retain a balanced exposure to the theme in comparison to other equity holdings.

The success of President Trump in November's US presidential election triggered a speculative environment for US assets. The anticipation of tax cuts and deregulation fuelled optimism that led to a surge in large-cap US growth stocks, cryptocurrencies like Bitcoin and Dogecoin, gold and the US dollar. The same policies were widely interpreted as negative for the rest of the world.

This confidence proved short lived as the realities of trade policies under President Trump following his inauguration became apparent. His approach of intermittently announcing tariffs, particularly targeting China and North American trading partners, undermined investor confidence, triggered sharp market swings, and contributed to a noticeable slowdown in US economic activity. By the end of the period, US GDP growth estimates had moved sharply negative, reflecting weakening consumer spending and disrupted trade flows.

MANAGER'S REPORT continued

INVESTMENT MANAGER'S REPORT continued

In sharp contrast, and buoyed by substantial fiscal stimulus initiatives, European equities ended the period on a stronger footing. Germany's launch of a €500 billion infrastructure and defence spending program boosted regional confidence, leading to strong performance in cyclically sensitive sectors and highlighting a notable shift away from the longstanding dominance of US equity markets.

Reflecting this shift, we increased exposure to European equities through the L&G Europe ex UK Equity UCITS ETF and favoured broader based US equity exposure through the iShares S&P Equal Weight UCITS ETF.

In other areas, absolute return funds continued to deliver consistent returns, with exceptional performance noted from the Man Absolute Value Fund, driven by the strength of its investment process.

In general, the benefits of diversifying across asset types shone through. Gold (held through the iShares Physical Gold ETC) led the way, appreciating by 35.7% over the period in Sterling terms, whilst copper (held through the WisdomTree Copper ETC) followed with a gain of 23.7%. Gold's performance reflects ongoing concerns over persistent inflation, which have been further exacerbated recently by tariffs. Given copper's exceptional rally and with analyst price targets approaching, we took the opportunity to trim our exposure shortly before the period end.

Our long-held view that the UK's investment trust sector is undervalued was validated, notably through Care REIT. A bid to acquire the REIT was made in March 2025 from the similarly named CareTrust REIT, a US-based real estate investment trust specialising in senior housing and healthcare properties. This acquisition led to a c.32% increase in Care REIT's share price from its pre-announcement close. Additionally, Urban Logistics REIT saw its discount to NAV narrow following intervention by activist investor Achilles, who raised concerns over the trust's management. As a result, the board is now reviewing governance practices and considering internalising management.

Overall, we continue to maintain a prudent balance across the Trust between capturing opportunities in undervalued markets and managing risks from inflation, geopolitical tensions, and elevated valuations, positioning it effectively for ongoing market uncertainties.

Outlook

Over recent months we have witnessed an unwinding of the "US Exceptionalism" market narrative which has demonstrated that non-US assets can still outperform when expectations and valuations are sufficiently depressed.

During this year the global political regime has shifted as the traditional partners and allies of the US have realised that they will not now be able to rely on the country, as they have done for decades. President Trump's unpredictability in reshaping domestic and global affairs are making market volatility great again.

MANAGER'S REPORT continued

INVESTMENT MANAGER'S REPORT continued

The push by the US to reduce trade deficits and escalating trade tariffs will ironically put pressure on the US equity market and, by implication of its weight, global equity markets. US companies need to operate in a world of global cooperation where they currently dominate global profits, especially relative to the US economy's share of global GDP. Thus, there is also the risk that falling business and consumer confidence in the US will potentially have a ripple effect across the economy, negatively affecting both earnings and guidance for domestically focussed US companies.

As a result of this, we believe that having a well-diversified portfolio is ever more important today. Due to this new regime in financial markets, we believe that active strategies and active managers should play a bigger role in our selection of funds as a means to deliver alpha and diversification. The performance of equity markets in the closing months of the period highlighted the need for diversification given the broad source of returns that we saw. For example, the Ranmore Global Equity and Polar Capital Global Insurance funds both generated positive returns during extremely challenging conditions as equity valuation multiples contracted.

Going forward, we are of the view that it remains prudent maintaining that diversification. Hence our exposure to both commodities (gold and copper) and our allocation to absolute return strategies, which includes the recent introduction of the Fulcrum Diversified Absolute Return Fund to the portfolio which has historically demonstrated a very low correlation to both equity and bond markets.

Nonetheless, we anticipate that non-US regions – particularly Europe and Asia – may be in a stronger position as investors seek opportunities outside the US and we expect policymakers in these regions to take supportive actions to buffer their economies from the aggressive US trade policies of recent months. In the meantime, the Trust remains widely diversified and cautiously positioned across asset classes and the underlying funds it invests in. The fundamentals of diversification and long-term discipline will remain our guiding principles as we navigate the months ahead.

MANAGER'S REPORT continued

TRUST INFORMATION

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Trust ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Trust. The shaded area in the table above shows the Trust's ranking on the Risk and Reward Indicator.

The Trust has been classed as 4 because its volatility has been measured as average.

The Trust is in the above risk category because it invests in a variety of asset classes, but with a bias towards shares.

The lowest category does not mean a trust is a risk free investment.

The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.

There is no guarantee that the Trust will meet its stated objectives.

The Trust invests in global shares, with some regions being regarded as more risky. The movements of exchange rates may lead to further changes in the value of investments and the income from them.

Whilst the intention of using derivatives is to reduce risk, this outcome is not guaranteed and derivatives involve additional risks which could lead to losses.

There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Trust.

Currency Risk: As the Trust can be exposed to different currencies, changes in exchange rates may decrease the value of your investment.

Counterparty Risk: The failure of a firm involved in a transaction with the Trust or providing services to the Trust may expose the Trust to financial loss.

Emerging Markets Risk: The Trust may invest in emerging markets, which are markets in countries that are developing. Emerging markets may have more political and economic risks than developed markets, resulting in price movements that may cause a loss to the Trust.

Changes in Interest Rate Risk: A rise in interest rates generally cause bond prices to fall.

Credit Risk: The value of a bond may be affected by its credit rating, the lower the rating the higher the risk of the issuer not paying interest or repaying the loan.

Liquidity Risk: The Trust may invest in assets where, in difficult market conditions, there is an increased risk that a position cannot be bought or sold in a timely manner or at a reasonable price and the Manager may suspend dealing in the Trust.

Derivatives Risk: A derivative may not perform as expected and may create losses greater than its cost.

MANAGER'S REPORT continued

TRUST INFORMATION continued

Risk and Reward Profile continued

Concentration Risk: The Trust may invest in stocks with a particular industry, sector or geographical focus. This means that the performance of a single industry, sector or geographical region within the Trust has a greater effect (loss or gain) on the value of the Trust.

For more information about the Trust's risks please see the Risk Factors section of the Prospectus which is available at www.waystone.com.

Comparative Tables

Where the Trust has significant investment in collective investment schemes, exchange-traded funds and similar products, the Operating Charges Figure takes account of the ongoing charges incurred in the underlying schemes, calculated as the expense value of such holdings at the year end weighted against the net asset value of the unit class at that date.

With effect from 1 January 2024, the Operating Charges Figure has been revised to remove the requirement to include the underlying costs of any investments in closed end funds, following guidance from the Investment Association.

The performance of the Trust is based on the published price per A Income unit with income reinvested.

The performance of the Trust disclosed in the above table may differ from the 'Return after charges' disclosed in the Comparative Table due to the above performance being calculated on the latest published price prior to the year end, rather than the year end return after operating charges.

Details of the distributions per unit for the year are shown in the Distribution Table on pages 52 to 56.

RISK WARNING

An investment in a unit trust should be regarded as a medium to long term investment. Investors should be aware that the price of units and the income from them can fall as well as rise and investors may not receive back the full amount invested. Past performance is not necessarily a guide to future performance. Investments denominated in currencies other than the base currency are subject to fluctuation in exchange rates, which can be favourable or unfavourable.

MANAGER'S STATEMENT

This report has been prepared in accordance with the requirements of the Collective Investment Schemes Sourcebook, as issued and amended by the Financial Conduct Authority.

K.J. MIDL

A.M. BERRY

WAYSTONE MANAGEMENT (UK) LIMITED

Manager of WS T. Bailey Multi-Asset Dynamic Fund
28 July 2025

STATEMENT OF MANAGER'S RESPONSIBILITIES

The Collective Investment Schemes Sourcebook published by the Financial Conduct Authority ('the COLL Sourcebook') requires the Manager to prepare financial statements for each annual accounting year which give a true and fair view of the financial position of the Trust and of the net revenue and net capital gains on the property of the Trust for the year.

In preparing the financial statements the Manager is responsible for:

- selecting suitable accounting policies and then applying them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to wind up the Trust or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Trust in accordance with its Trust Deed, the Prospectus and the COLL Sourcebook.

STATEMENT OF TRUSTEE'S RESPONSIBILITIES

The Trustee of WS T. Bailey Multi-Asset Dynamic Fund must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together 'the Regulations'), the Trust Deed and Prospectus (together 'the Scheme documents') as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Trustee is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Trustee must ensure that:

- the Trust's cash flows are properly monitored and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- the sale, issue, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- the Trust's income is applied in accordance with the Regulations; and
- the instructions of the Manager which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme document of the Trust in relation to the investment and borrowing powers applicable to the Trust.

REPORT OF THE TRUSTEE

Having carried out such procedures as we considered necessary to discharge our responsibilities as Trustee of the Trust, it is our opinion, based on the information available to us and the explanations provided, that in all material respects, the Trust, acting through the Manager:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's income in accordance with the Regulations and the Scheme documents of the Trust; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Trust in accordance with the Regulations and the Scheme documents of the Trust.

THE BANK OF NEW YORK MELLON (INTERNATIONAL) LIMITED

Trustee of WS T. Bailey Multi-Asset Dynamic Fund

28 July 2025

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF WS T. BAILEY MULTI-ASSET DYNAMIC FUND ('THE TRUST')

Opinion

We have audited the financial statements of the Trust for the year ended 31 March 2025 which comprise the *Statement of Total Return, the Statement of Change in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables* for the Trust and the accounting policies set out on pages 34 to 37.

In our opinion the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*, of the financial position of the Trust as at 31 March 2025 and of the net revenue and the net capital gains on the property of the Trust for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to Authorised Funds, and the COLL Rules.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ('ISAs (UK)') and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Trust in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going Concern

The Manager has prepared the financial statements on the going concern basis as they do not intend to liquidate the Trust or to cease their operations, and as they have concluded that the Trust's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ('the going concern period').

In our evaluation of the Manager's conclusions, we considered the inherent risks to the Trust's business model and analysed how those risks might affect the Trust's financial resources or ability to continue operations over the going concern period.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF WS T. BAILEY MULTI-ASSET DYNAMIC FUND ('THE TRUST') continued

Our conclusions based on this work:

- we consider that the Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Manager's assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Trust's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Trust will continue in operation.

Fraud and Breaches of Laws and Regulations – Ability to Detect

IDENTIFYING AND RESPONDING TO RISKS OF MATERIAL MISSTATEMENT DUE TO FRAUD

To identify risks of material misstatement due to fraud ('fraud risks') we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- enquiring of directors as to the Trust's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud;
- assessing the segregation of duties in place between the Manager, the Trustee, the Administrator and the Investment Manager.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because the revenue is principally non-judgemental and based on publicly available information, with limited opportunity for manipulation. We did not identify any additional fraud risks.

We evaluated the design and implementation of the controls over journal entries and other adjustments and made inquiries of the Administrator about inappropriate or unusual activity relating to the processing of journal entries and other adjustments. We identified and selected a sample of journal entries made at the end of the reporting period and tested those substantively including all material post-closing entries. Based on the results of our risk assessment procedures and understanding of the process, including the segregation of duties between the Directors and the Administrator, no further high-risk journal entries or other adjustments were identified.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF WS T. BAILEY MULTI-ASSET DYNAMIC FUND ('THE TRUST') continued

IDENTIFYING AND RESPONDING TO RISKS OF MATERIAL MISSTATEMENT DUE TO NON-COMPLIANCE WITH LAWS AND REGULATIONS

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the Manager and the Administrator (as required by auditing standards) and discussed with the Directors the policies and procedures regarding compliance with laws and regulations.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Trust is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related authorised fund legislation maintained by the Financial Conduct Authority) and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Trust is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: money laundering, data protection and bribery and corruption legislation recognising the Trust's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and the Administrator and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

CONTEXT OF THE ABILITY OF THE AUDIT TO DETECT FRAUD OR BREACHES OF LAW OR REGULATION

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF WS T. BAILEY MULTI-ASSET DYNAMIC FUND ('THE TRUST') continued

Other Information

The Manager is responsible for the other information presented in the Annual Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in the Manager's Report for the financial year is consistent with the financial statements.

Matters on Which We Are Required to Report by Exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Trust have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's (Waystone Management (UK) Limited) Responsibilities

As explained more fully in their statement set out on page 24, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF WS T. BAILEY MULTI-ASSET DYNAMIC FUND ('THE TRUST') continued

The Purpose of Our Audit Work and to Whom We Owe Our Responsibilities

This report is made solely to the Trust's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ('the COLL Rules') issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2025

1. Accounting Policies

The principal accounting policies, which have been applied in both the current and prior year, are set out below.

(A) BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland. The financial statements have been prepared in accordance with the Statement of Recommended Practice ('SORP') for Financial Statements of UK Authorised Funds issued by the Investment Association ('IA') in May 2014, as amended.

These financial statements are prepared on a going concern basis. The Manager has made an assessment of the Trust's ability to continue as a going concern, and is satisfied it has the resources to continue in business for the foreseeable future and is not aware of any material uncertainties that may cast significant doubt on this assessment. This assessment is made as at the date of issue of these financial statements, covering the subsequent 12 months, and considers liquidity, declines in global capital markets, known redemption levels, expense projections and key service provider's operational resilience. The Manager also considered the Trust's continued ability to meet ongoing costs, and is satisfied it has the resources to meet these costs and to continue in business.

(B) RECOGNITION OF REVENUE

Dividends on quoted equities are recognised when the securities are quoted ex-dividend.

Distributions from collective investment schemes are recognised when the schemes are quoted ex-distribution. Equalisation returned with the distribution is deducted from the cost of the investment in the scheme and does not form part of the distributable revenue.

Reportable income from funds with 'reporting fund' status for UK tax purposes is recognised when the information is made available by the reporting fund.

Revenue on debt securities is accounted for on an effective yield basis.

The treatment of the income on derivative contracts is dependent upon the nature of the transaction. To determine whether the returns should be treated as capital or revenue the motive and circumstances of the transaction are used. Where positions are undertaken to protect or enhance capital, the returns are recognised in net capital gains; similarly where positions are taken to generate or protect revenue, the returns are included within net revenue before taxation. Where positions generate total returns it will generally be appropriate to apportion such returns between capital and revenue to properly reflect the nature of the transaction.

Interest on bank and other cash deposits is recognised on an accruals basis.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

Revenue is recognised gross of any withholding taxes but excludes attributable tax credits.

(C) TREATMENT OF EXPENSES

All expenses, including for those relating to the purchase and sale of investments, are charged against capital.

(D) ALLOCATION OF REVENUE AND EXPENSES TO MULTIPLE UNIT CLASSES

Any income or expense not directly attributable to a particular unit class will normally be allocated pro-rata to the net assets of the relevant unit classes unless a different allocation method is deemed more appropriate by the Manager.

All unit classes are ranked pari passu and have no particular rights or terms attached, including rights on winding up.

(E) TAXATION

Corporation tax is provided at 20% on taxable revenue, after deduction of allowable expenses.

Offshore income gains, from funds without reporting status, are liable to corporation tax at 20% and any resulting charge is deducted from capital.

Where overseas tax has been deducted from overseas revenue that tax can, in some instances, be set off against the corporation tax payable by way of double tax relief and where this is the case the offset is reflected in the tax charge.

Deferred tax is provided using the liability method on all timing differences arising on the treatment of certain items for taxation and accounting purposes, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred tax assets are recognised only when, on the basis of available evidence, it is more likely than not that there will be taxable profits in the future against which the deferred tax asset can be offset.

(F) BASIS OF VALUATION OF INVESTMENTS

All investments are valued at their fair value as at close of business on the last business day of the financial year.

Quoted investments are valued at fair value which generally is the bid price, excluding any accrued interest in the case of debt securities. Accrued interest on debt securities is included in revenue.

Collective investment schemes are valued at published bid prices for dual priced funds and at published prices for single priced funds.

Open forward currency contracts are valued based on the difference between the contract value and the market value adjusted by the prevailing spot rate and swap curve.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

(G) EXCHANGE RATES

The base and functional currency of the Trust is pounds sterling. Transactions in foreign currencies are recorded in sterling at the rate ruling at the date of the transactions. Assets and liabilities expressed in foreign currencies at the end of the accounting period are translated into sterling at the exchange rate prevailing at close of business on the last business day of the financial year.

(H) DILUTION LEVY

The Manager may require a dilution levy on the purchase and redemption of units if, in its opinion, the existing unitholders (for purchases) or remaining unitholders (for redemptions) might otherwise be adversely affected. For example, the dilution levy may be charged in the following circumstances: where the scheme property is in continual decline; on a Trust experiencing large levels of net purchases relative to its size; on 'large deals' (typically being a purchase or redemption of units to a size exceeding 5% of the Net Asset Value of the Trust); in any case where the Manager is of the opinion that the interests of existing or remaining unitholders require the imposition of a dilution levy.

(I) PORTFOLIO TRANSACTION COSTS

Direct transaction costs may consist of fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Debt security investments have no separately identifiable transaction costs as they form part of the dealing spread. Indirect transaction costs may be incurred on transactions in underlying schemes but these do not form part of the direct transaction costs disclosures. Direct transaction costs do not include any difference between the quoted bid and offer prices or internal administrative or holding costs. The average portfolio dealing spread disclosed is the difference between the bid and offer prices of investments at the balance sheet date, including the effect of foreign exchange, expressed as a percentage of the value determined by reference to the offer price.

2. Distribution Policies

Surplus revenue after expenses and taxation, as disclosed in the financial statements, after adjustment for items of a capital nature charged against revenue, is distributable to unitholders. Any deficit of revenue is deducted from capital.

All expenses are transferred to capital for distribution purposes in line with the Trust's investment objective. This will increase the amount of revenue available for distribution; however, will erode capital and may constrain capital growth.

Interim distributions may be made at the Manager's discretion. Final distributions are made in accordance with the COLL Sourcebook.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

The ordinary element of stock received in lieu of cash dividends is credited to capital in the first instance followed by a transfer to revenue of the cash equivalent being offered and this forms part of the distributable revenue of the Trust. In the case of an enhanced stock dividend, the value of the enhancement is treated as capital and does not form part of any distribution.

Special dividends are reviewed on a case by case basis in determining whether the dividend is to be treated as revenue or capital. Amounts recognised as revenue will form part of the distributable revenue. Amounts recognised as capital are deducted from the cost of the investment. The tax accounting treatment follows the treatment of the principal amount.

3. Net Capital Gains

The net capital gains during the year comprise:

	31.03.25 £'000	31.03.24 £'000
Non-derivative securities	5,104	1,648
Forward currency contracts	(74)	263
Transaction charges	(1)	(1)
Currency losses	(46)	(1,005)
Net capital gains	<u>4,983</u>	<u>905</u>

4. Revenue

	31.03.25 £'000	31.03.24 £'000
Non-taxable dividends	1,170	1,799
Taxable dividends	709	42
UK property income distributions	494	727
Interest on debt securities	473	400
Interest distributions on CIS holdings	915	1,099
Bank interest	265	418
Total revenue	<u>4,026</u>	<u>4,485</u>

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

5. Expenses

	31.03.25 £'000	31.03.24 £'000
Payable to the Manager, associates of the Manager and agents of either of them:		
Annual Management Charge	599	742
Administration fees	4	16
Typesetting costs	9	-
Registration fees	53	75
TCFD fees	3	-
	668	833
Payable to the Trustee, associates of the Trustee or agents of either of them:		
Trustee's fees	43	56
Safe custody and other bank charges	9	4
	52	60
Other expenses:		
Audit fees	11	5
Tax compliance fees	-	6
	11	11
Total expenses	<u>731</u>	<u>904</u>

The Investment Manager's fees and expenses (plus VAT thereon) for providing investment management services are paid by the Manager out of its remuneration.

6. Taxation

	31.03.25 £'000	31.03.24 £'000
a) Analysis of charge for the year		
Corporation tax at 20%	426	353
Adjustments in respect of prior periods	14	–
Current tax charge	440	353
Deferred tax – origination and reversal of timing differences (note 6c)	–	–
Total taxation (note 6b)	440	353

b) Factors affecting the tax charge for the year

The tax assessed for the year differs from the standard rate of corporation tax in the UK for an authorised fund (20%) (31.03.24: 20%). The difference is explained below:

	31.03.25 £'000	31.03.24 £'000
Net revenue before taxation	3,292	3,566
Corporation tax at 20%	658	713
Effects of:		
Non-taxable dividends	(232)	(360)
Corporation tax charge	426	353
Adjustments in respect of prior periods	14	–
Total tax charge (note 6a)	440	353

c) Deferred tax

At the year end there is no potential deferred tax asset in relation to surplus management expenses. Accordingly no tax assets have been recognised.

7. Interest Payable and Similar Charges

	31.03.25 £'000	31.03.24 £'000
Interest payable	3	–
Total interest payable and similar charges	3	–

FINANCIAL STATEMENTS continued

for the year ended 31 March 2025

8. Distributions

The distributions take account of revenue received on the issue of units and revenue deducted on redemption of units, and comprise:

	31.03.25 £'000	31.03.24 £'000
First Interim	886	1,528
Second Interim	548	861
Third Interim	1,298	914
Final	652	521
	<u>3,384</u>	<u>3,824</u>
Add: Revenue deducted on redemption of units	188	125
Deduct: Revenue received on issue of units	(136)	(14)
Net distributions for the year	<u>3,436</u>	<u>3,935</u>

Details of the distributions per unit are set out in the table on pages 52 to 56.

	31.03.25 £'000	31.03.24 £'000
Net revenue after taxation	2,852	3,213
Allocations to capital:		
Expenses, net of tax relief	584	722
Net distributions for the year	<u>3,436</u>	<u>3,935</u>

9. Debtors

	31.03.25 £'000	31.03.24 £'000
Amounts receivable for issue of units	269	107
Sales awaiting settlement	2,966	-

12. Related Party Transactions

The Annual Management Charge, TCFD fees and administration fees, payable to Waystone Management (UK) Limited ('WMUK') ('the Manager') and registration fees payable to Waystone Transfer Agency Solutions (UK) Limited and typesetting costs payable to Waystone Administration Solutions (UK) Limited (both companies are associates of the Manager) are disclosed in note 5 and amounts due at the year end are disclosed in notes 9 and 11.

The aggregate monies received by the Manager through the issue of units and paid on redemption of units are disclosed in the Statement of Change in Net Assets Attributable to Unitholders on page 32 and amounts due at the year end are disclosed in notes 9 and 11.

WMUK and its associates (including other authorised investment funds managed by WMUK or its associates) held 7,816,065 (31.03.24: 15,078,279) of the Trust's units at the balance sheet date.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

T. Bailey Asset Management Limited held 3,006,138 (31.03.24: 3,105,168) of the Trust's units at the balance sheet date.

A unitholder may be able to exercise significant influence over the financial and operating policies of the Trust and as such is deemed to be a related party. At the balance sheet date the following unitholder held in excess of 20% of the units in issue of the Trust:

Utmost International Isle of Man Limited 25.88% (31.03.24: 20.51%)

13. Contingent Liabilities and Commitments

There are no contingent liabilities or unrecorded outstanding commitments (31.03.24: none).

NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

15. Risk Management Policies

In pursuing the investment objective a number of financial instruments are held which may comprise securities and other investments, cash balances and debtors and creditors that arise directly from operations. Derivatives, such as futures or forward currency contracts, may be utilised for Efficient Portfolio Management (including hedging) purposes.

The main risks from the Trust's holding of financial instruments, together with the Manager's policy for managing these risks, are set out below:

The Manager has in place a Risk Management Policy and Procedures Document ('RMPPD') that sets out the risks that may impact a trust and how the Manager seeks, where appropriate, to manage, monitor and mitigate those risks, and in particular those risks associated with the use of derivatives. The RMPPD sets out both the framework and the risk mitigations operated by the Manager in managing the identified risks of the Trust. The Manager requires that the appointed Investment Manager to the Trust has in place its own governance structure, policies and procedures that are commensurate with its regulatory obligations and the risks posed by the trust managed.

(A) CREDIT RISK

Credit risk is the risk that a counterparty may be unable or unwilling to make a payment or fulfil contractual obligations. This may be in terms of an actual default or by deterioration in a counterparty's credit quality. Certain transactions in securities that the Trust enters into expose it to the risk that the counterparty will not deliver the investment for a purchase, or cash for a sale after the Trust has fulfilled its obligations. As part of its due diligence process, the Manager undertakes a review of the controls operated over counterparties by the Investment Manager, including initial and ongoing due diligence and business volumes placed with each counterparty. In cases which are dependent on the counterparty settling at the transaction's maturity date, the Manager has policies in place which set out the minimum credit quality expected of a market counterparty or deposit taker at the outset of the transaction.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

There were forward currency contracts held at the balance sheet date. Details of individual contracts are disclosed separately in the Portfolio Statement and the total position by counterparty at the balance sheet date was as follows:

31.03.25 Counterparty	Forward currency contracts £'000	Net cash collateral pledged £'000
BNY Mellon	(19)	-

31.03.24 Counterparty	Forward currency contracts £'000	Net cash collateral pledged £'000
BNY Mellon	(110)	-

(B) INTEREST RATE RISK

Interest rate risk is the risk that the value of the Trust's investments will fluctuate as a result of interest rate changes. The value of fixed interest securities may be affected by changes in interest rates, either globally or locally. Changes in the rate of return in one asset class may influence the valuation basis of other classes. The amount of revenue receivable from floating rate securities and on bank balances or payable on bank overdrafts will be affected by fluctuations in interest rates. Investment in collective investment schemes may expose the Trust to indirect interest rate risk to the extent that they may invest in interest bearing securities, the returns from which will be affected by fluctuations in interest rates.

The Trust takes on interest rate risk within its investment portfolio where the Manager and Investment Manager believe that the expected return compensates for the overall risk. The Manager and Investment Manager continue to monitor the level of interest rate risk posed by the Trust's underlying investments on a regular basis. The Trust may also indirectly be exposed to interest rate risk through its investment in collective investment schemes. As the Trust has no significant direct exposure to interest rate risk, no sensitivity analysis has been presented.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

The table below shows the interest rate risk profile:

	31.03.25 £'000	31.03.24 £'000
Fixed rate investments	9,812	12,580
Floating rate investments	20,755	-
Investments on which interest is not paid	86,090	131,087
Investment liabilities on which interest is not paid	(19)	(110)
Total investments	<u>116,638</u>	<u>143,557</u>

The floating rate investments comprise collective investment schemes that pay UK interest distributions.

Investments on which interest is not paid include equities, collective investment schemes and forward currency contracts.

(C) FOREIGN CURRENCY RISK

Foreign currency risk is the risk that the Sterling value of investments will fluctuate as a result of exchange rate movements. Assets denominated in currencies other than Sterling will provide direct exposure to currency risk as a consequence of the movement in foreign exchange rates when calculating the Sterling equivalent value. Forward currency contracts are employed by the Investment Manager, where deemed appropriate, to mitigate the foreign exchange risk. Investment in collective investment schemes may provide indirect exposure to currency risk as a consequence of the movement in foreign exchange rates.

FINANCIAL STATEMENTS continued
NOTES TO THE FINANCIAL STATEMENTS continued
for the year ended 31 March 2025

The table below shows the direct foreign currency risk profile:

	31.03.25 Gross £'000	31.03.25 Hedged £'000	31.03.25 Net £'000
Currency:			
Japanese yen	-	3,080	3,080
US dollars	9,107	(3,099)	6,008
	<u>9,107</u>	<u>(19)</u>	<u>9,088</u>
Pounds sterling	114,154	-	114,154
Net assets	<u>123,261</u>	<u>(19)</u>	<u>123,242</u>

	31.03.24 Gross £'000	31.03.24 Hedged £'000	31.03.24 Net £'000
Currency:			
Japanese yen	-	3,056	3,056
US dollars	21,746	(3,166)	18,580
	<u>21,746</u>	<u>(110)</u>	<u>21,636</u>
Pounds sterling	127,591	-	127,591
Net assets	<u>149,337</u>	<u>(110)</u>	<u>149,227</u>

A 5% change in the pounds Sterling exchange rate against all other currencies, assuming all other factors remained the same, would have an impact of £454,000 on the net assets of the Trust (31.03.24: £1,082,000).

(D) LEVERAGE

The Trust did not employ any significant leverage during the current or prior year.

(E) LIQUIDITY RISK

The main liability of the Trust is the redemption of any units that investors want to sell. Investments may have to be sold to fund such redemptions should insufficient cash be held at the bank to meet this obligation. The Manager monitors the liquidity profile of the Trust daily.

In assessing the liquidity profile of the Trust, the Manager assesses how much of the Trust can be realised under normal and stressed market conditions, and the impact this would have on the structure of the Trust.

FINANCIAL STATEMENTS continued

NOTES TO THE FINANCIAL STATEMENTS continued

for the year ended 31 March 2025

Based on this analysis 89.93% of the portfolio can be liquidated within 7 days and 91.73% within 30 days (31.03.24: 64.46% within 5 days and 78.98% within 21 days). Given this and the Manager's understanding of the investor base, it is considered that the liquidity profile of the Trust is acceptable.

All financial liabilities are payable in one year or less, or on demand.

(F) MARKET PRICE RISK

Market price risk is the risk that the value of the Trust's financial instruments will fluctuate as a result of changes in market prices caused by factors other than interest rate or foreign currency movement. Market price risk arises primarily from uncertainty about the future prices of financial instruments that the Trust holds.

Market price risk represents the potential loss the Trust may suffer through holding market positions in the face of price movements. The Trust's investment portfolio is exposed to price fluctuations, which are monitored by the Manager in pursuance of the investment objective and policy. The risk is generally regarded as consisting of two elements – stock specific risk and market risk. Adhering to investment guidelines and avoiding excessive exposure to one particular issuer can limit stock specific risk. Subject to compliance with the investment objective, spreading exposure across a broad range of global stocks can mitigate market risk.

A 5% increase in the value of the Trust's portfolio, excluding forward currency contracts, would have the effect of increasing the return and net assets by £5,833,000 (31.03.24: £7,183,000). A 5% decrease would have an equal and opposite effect.

(G) DERIVATIVES

The Investment Manager has employed derivatives for the purposes of hedging with the aim of the risk profile of the Trust, or reducing costs, or generating additional capital or income, in accordance with Efficient Portfolio Management (EPM). Due to the relatively simple derivative strategies that used by the Trust, the Manager monitors their risk using the commitment approach. The leverage, as using the approach, cannot exceed 100%.

During the year the Investment Manager has used forward currency contracts. The intention in using currency contracts is to reduce the risk profile of the Trust by managing the exposure of the Trust currency exchange risk and leave the Trust primarily exposed to the underlying market risk of investments. Therefore, where the value of investments falls due to currency movement, the forward currency generate a gain and vice versa.

DISTRIBUTION TABLE

for the year ended 31 March 2025 – in pence per unit

EQUALISATION

Equalisation applies only to units purchased during the distribution period (Group 2 units – the applicable distribution periods for each distribution are shown below). It represents the accrued revenue included in the purchase price of the units. After averaging it is returned with the distribution as a capital repayment. It is not liable to Income Tax but must be deducted from the cost of the units for Capital Gains Tax purposes.

GENERAL INFORMATION

Classes of Units

The Trust may issue income and accumulation units.

Holders of income units are entitled to be paid the distributable income attributed to such units on any relevant interim and annual allocation dates.

Holders of accumulation units are not entitled to be paid the income attributed to such units, but that income is automatically transferred to (and retained as part of) the capital assets of the Trust on the relevant interim and/or annual accounting dates. This is reflected in the price of an accumulation unit.

Valuation Point

The current valuation point of the Trust is 12 noon (London time) on every business day, or if such valuation point falls on United Kingdom (UK) public holiday, on the next business day.

Buying and Selling Units

The Manager will accept orders to buy or sell units on normal business days between 8.30am and 5.30pm (London time) and transactions will be effected at prices determined by the following valuation. Instructions to buy or sell units may be either in writing to: PO Box 389, Darlington DL1 9UF or by telephone on 0345 922 0044.

Prices

The prices of all units will be published on every dealing day on the Manager's website www.waystone.com. The prices of units may also be obtained by calling 0345 922 0044 during the Manager's normal business hours.

Other Information

The Trust Deed, Prospectus, Key Investor Information Document and the most recent interim and annual reports may be inspected at, and obtained from, the Manager at 3rd Floor, Central Square, 29 Wellington Street, Leeds, United Kingdom, LS1 4DL during normal business hours on any business day, in addition to most of these documents being available at www.waystone.com.

Unitholders who have any complaints about the operation of the Trust should contact the Manager or the Trustee in the first instance. In the event that a unitholder finds the response unsatisfactory they may make their complaint direct to the Financial Ombudsman Service at Exchange Tower, London E14 9SR. Information about the Financial Ombudsman can be found on its website at www.financial-ombudsman.org.uk.

GENERAL INFORMATION continued

Data Protection Act

Unitholders' names will be added to a mailing list which may be used by the Manager, its associates or third parties to inform investors of other products by sending details of such products. Unitholders who do not want to receive such details should write to the Manager requesting their removal from any such mailing list.
