

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS T. Bailey UK Responsibly Invested Equity Fund (the "Fund"),

S Accumulation (ISIN: GB00BPRB1Q30)

Waystone Management (UK) Limited is the Manager of the Fund

Objective and Investment Policy

Objective

To achieve capital growth in excess of the IA UK All Companies Sector average over Rolling Periods of 5 years (after charges) through a portfolio of screened UK listed companies that are assessed to have positive environmental and social sustainability characteristics.

The Fund's sustainability characteristics means that it will comprise a narrower universe of investments compared to other funds which do not have such characteristics. If the excluded investments experience strong share price performance, the Fund's performance may deviate from the target benchmark.

Investment Policy

The Fund will invest at least 80% of its net asset value in a concentrated portfolio of equity or equity-related securities of responsibly screened UK companies listed on the London Stock Exchange (LSE) diversified by sector, industry and market capitalisation. UK companies are those incorporated or domiciled in the UK.

The Fund will invest in companies that are assessed to have positive environmental and social characteristics. The Fund considers positive environmental and social characteristics to mean an overall alignment with the following:

- positive environmental change and minimisation of environmental damage;
- support for the community, employees and society evidenced through community programmes, protection of human rights and improving working conditions; and

•the need to act ethically and with integrity in support of society and stakeholders by operating in a responsible manner, avoiding negative impacts on society and committing to sustainability programmes.

The Fund will be concentrated, typically comprising of between 25 and 35 holdings, although the number of holdings may from time to time fall outside of this range.

The Fund will be actively managed.

Up to 20% of the Fund may be invested in shares of responsibly screened non-UK companies listed on the LSE. Accordingly, up to 100% of the Fund's net asset value could be invested in responsibly screened companies (both UK and non-UK). To the extent that the Fund is not fully invested, investments may also be made in cash-like instruments, such as money market instruments, deposits, cash and near cash. Such investments are not intended to be more than 20% in aggregate of the value of the Fund.

Essential features of the Fund:

Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For accumulation units, any income received is reflected in the price of units.

Derivatives may be used for efficient portfolio management purposes to reduce risk or cost or to generate additional capital or income. The use of derivatives is expected to be limited.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

The Fund has been classed as 5 because its volatility has been measured as above average.

As the Fund launched on 14 February 2022, the indicator has been calculated based in part on the volatility of the Investment Association UK All Companies Sector(GBP) average over the last five years (in total return and GBP terms).

The Fund is in the above risk category because it invests in shares.

A limited number of investments may be held which has the potential to increase the volatile performance over shorter time periods.

The lowest category does not mean a fund is a risk free investment.

The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.

There is no guarantee that the Fund will meet its stated objectives.

Whilst the intention of using derivatives is to reduce risk, this outcome is not guaranteed and derivatives involve additional risks which could lead to losses.

There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

- Counterparty Risk: The failure of a firm involved in a transaction with the Fund or providing services to the Fund may expose the Fund to financial loss.
- Liquidity Risk: The Fund may invest in assets where, in difficult market conditions, there is an increased risk that a position cannot be bought or sold in a timely manner or at a reasonable price and the Manager may suspend dealing in the Fund.
- Derivatives Risk: A derivative may not perform as expected and may create losses greater than its cost.
- Concentration Risk: The Fund may invest in stocks with a particular industry, sector or geographical focus. This means that the performance of a single industry, sector or geographical region within the Fund has a greater effect (loss or gain) on the value of the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge None

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Exit Charge None

Charges taken from the Fund over the year

Ongoing Charges 0.91%

Charges taken from the Fund under certain specific conditions

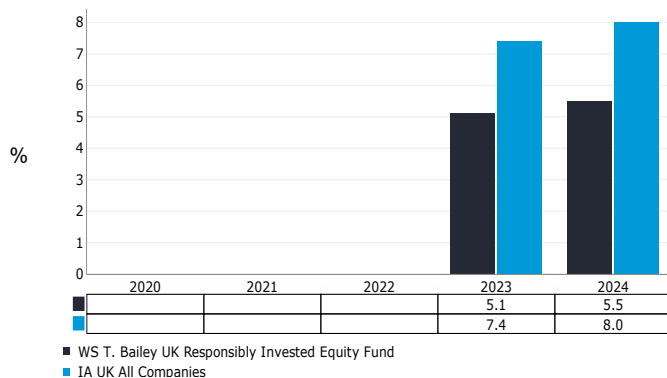

Performance Fee None

The ongoing charges figure is based on the expenses as at 31 March 2025.

The figure may vary from year to year. It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

For details of actual charges, please contact your financial adviser/distributor.

Past Performance

You should be aware that past performance is not a guide to future performance.

Fund launch date: 14/02/2022.

Share/unit class launch date: 14/02/2022.

Performance is calculated in GBP.

Performance is shown inclusive of all charges, except entry charges.

Performance is shown on a total return basis (on the basis that distributable income has been reinvested).
